

# Coloring Book

MOths

It's a Moth Coloring Book (or Colouring book depending on where you're located) made entirely for entertainment purposes only, and may not be completely factually accurate. Chalk it up to artistic interpretation.

Please note 2 things:

- I'm not an Entomologist. I like moths, I like insects, but it's more of an informal relationship - so outside of appreciating them, I don't know much about insects. I tried my best to make these as accurate as possible, but if something is glaringly obviously wrong, please email me and I'll fix it.
- Secondly, if you want to do something with this other than print-n-doodle on it, please drop me an email. I'm pretty easy-going about cross-posting for personal, or educational, or for fun use, but if you plan to take this for mass-print publishing, or to make a profit on, then that is seriously uncool.

Drop me an email if you have any questions, concerns, corrections, comments, and etcetera: [alison.ainsworth@gmail.com](mailto:alison.ainsworth@gmail.com)

Message from Alison, the girls and  
luck for a ward, and  
silver best!  
Good their the  
for all

This is a SOLITARY BEE.

I don't sting!

Solitary Bees do NOT sting.

Solitary bees are great pollinators.

Solitary bees are not honey bees.
