

Do's and Don'ts for Your Residential Fire Sprinkler System

DO:

1. Have system inspected annually
2. Know the location of the control valve
3. Make certain the control valve is open at all times
4. Contact the fire department if any activation occurs, even if the fire has apparently been extinguished

DON'T:

1. Do not paint the fire sprinklers
2. Do not damage the fire sprinklers
3. Do not hang objects from the fire sprinklers
4. Do not obstruct or cover the fire sprinklers
5. Do not turn off or disconnect the fire sprinkler system
6. Do not shut off fire sprinkler system in the event of a fire

In the event of a fire, be calm and leave your home immediately. Call the fire department from a neighbor's house.
